TUNISIA | VERIFIED JOB RESEARCH | 20 OCTOBER 2026

Remote customer support job opportunities

English-first roles, plus worthwhile Arabic / French opportunities. A candid shortlist for moving from a 1,500–1,600 TND net monthly salary into international support work.

Candidate snapshot

English	French	Work base	Professional background
C1	B2	Tunisia	Technical troubleshooting, support experience, supplier / operations coordination

Best immediate actions

1. Quadcode — directly states remote Tunisia; 2. HostPapa French/English — active employer application plus a job board that lists Tunisia; 3. Ricaris — English-first, worldwide but short contract and pay must be clarified; 4. Regnology first-level technical support — potentially well suited but live employer status requires verification.

Scope of this report

- 17 individual roles, candidate pools or closely related fallbacks, clearly classified by work-location evidence and current posting status.
- Per-role duties, language / experience requirements, screening fit, pay evidence or lack thereof, work hours and clickable application links.
- A published salary benchmark, net-pay target calculations, application order, ready-to-send recruitment questions and a source register.

Research limitation: Vacancies may close without notice; a remote posting does not necessarily accept employment from Tunisia. No employer-provided hiring acceptance-rate data was found, so scores describe qualification screening fit, NOT statistical chances of receiving an offer.

1 How the ratings and salary figures work

Read this page before interpreting any job as an offer, guaranteed location, or probable acceptance.

Label	Meaning	How to act
APPLY NOW	Current direct employer posting; Tunisia is either directly named or supported by a reputable current index.	Send tailored CV and check country/shift details.
VERIFY + APPLY	Listing found, but employer page, current status or location confirmation is incomplete.	Verify with employer before investing heavily.
SECONDARY / BACKUP	Sales-heavy, short-term, on-site, hybrid or otherwise less aligned.	Pursue only if trade-offs acceptable.
WATCH / SKIP	Mandatory language mismatch, country restriction, expired URL or talent pool only.	Do not count as an active eligible vacancy.

Screening fit — NOT offer probability

• GOOD: Published language/experience requirements appear plausibly attainable; another real blocker may remain.

• PROMISING / CONDITIONAL: Some known requirements align, with important missing proof (e.g., number of years of support, language proficiency assessment, software-specific tools).

• NOT AT REQUIRED LEVEL / LOCATION BLOCKED: Published minimum conflicts with current information. Applying is unlikely to pass the stated initial filter unless the employer makes an exception.

• No percentage: A “70% chance of acceptance” would be fabricated without the employer’s applicant funnel, applicant pool, recruitment priorities and your verified complete CV.

Pay categories

• Employer-disclosed: Only the actual salary/rate explicitly stated by the company or listing.

• Source-specific ambiguous: Ricaris publishes a $5–$10 range but leaves payment unit and active/standby treatment insufficiently clear; never assume this is a normal hourly salary.

• External market benchmark: Plane publishes estimated annual remote CSR base compensation for Tunisia; this is not a salary forecast for any named company.

• Personal negotiating target: 2,400–3,000 TND net/month is a decision threshold selected for the candidate, not the salary these employers are expected to offer.

Critical hiring filters

Before applying, independently confirm: Can you hire someone physically resident in Tunisia? Is this a real employee role or a contractor engagement? What is the monthly net equivalent after taxes, social charges and missing benefits? What shifts apply in Tunisia?

2 Prioritized shortlist — one-page comparison

This table places realistic remote options first. “N/D” = no salary number disclosed by the employer; it does not mean unpaid.

#	Employer / role	Tunisia	Screening fit	Pay
01	Quadcode Customer Support Operator (Arabic & English)	TN confirmed	GOOD	N/D
02	HostPapa / Managed.com Web Hosting Customer Experience Specialist (French & English)	TN indexed	GOOD	N/D
03	Ricaris Call Line Specialist / Customer Support (English)	Global	PROMISING if phone support experien	$5–$10*
04	Regnology Technical Customer Support Specialist	TN indexed	PROMISING if software helpdesk hist	N/D
05	Whizz Virtual Customer Service Representative (live video)	TN indexed	CONDITIONAL	N/D
06	Binance Customer Service Representative (Arabic & English)	Jordan	QUALIFICATIONS plausible	N/D
07	SupportYourApp Customer Support Consultant (French & English)	TN indexed	NOT AT REQUIRED FRENCH LEVEL	N/D
08	5CA French & English Customer Support Agent	TN indexed	NOT AT REQUIRED FRENCH LEVEL	N/D
09	Whizz Sales Representative (French/Arabic) — adjacent role	TN indexed	CONDITIONAL	N/D
10	HostPapa / Managed.com Web Hosting Customer Experience Specialist — “English” title	Unknown	NOT SUITABLE without Spanish	N/D
13	SupportYourApp Fulfillment Support Specialist (English C1)	TN indexed	GOOD LANGUAGE FIT	N/D
14	ModSquad Mod / Customer Support Talent Network	Unknown	POSSIBLE FUTURE MATCH	N/D

* Ricaris amount has an unclear rate unit; not verified as hourly. Details of every job and its clickable source appear in the following pages. The other five listed roles (11, 12, 15, 16, 17) are local/hybrid/region-blocked backups or exclusions.

3 English-first opportunities

Starting with English C1 as your strongest documented language. Some leads are technically support-oriented; only the ones explicitly marked remote + Tunisia/worldwide qualify under the strict location test.

03 Ricaris

VERIFY + APPLY

Call Line Specialist / Customer Support (English)

REMOTE / worldwide eligibility stated | English only | THIRD-PARTY LIVE LISTING

What you do: Take inbound English calls, direct requests and maintain records in a CRM. Client-facing work is phone-based.

Minimum requirements: Fluent English; documented phone-based support; CRM/dialer skills; backup power and internet.

Screening fit / why: PROMISING if phone support experience. C1 English aligns very well, location open to all countries. Financial viability uncertain; short contract (2–3 months), with potential extension.

Pay: Listing says “$5–$10” but does not clearly define the unit; active/standby pay differs. Clarify in writing. Schedule: 04:00–12:00 US Eastern Time; working hours in Tunis change when US daylight time changes.

Evidence: Listed on Himalayas, not direct-employer verified | Open listing / application

04 Regnology

VERIFY + APPLY

Technical Customer Support Specialist

REMOTE / Tunisia per job index | English + French | INDEXED WORKDAY + THIRD-PARTY

What you do: First-line product support for financial reporting software: logs, tickets, configuration/data discrepancies, user escalation.

Minimum requirements: 1–2 years support/helpdesk; excellent English and strong French; ability to read logs and some SQL; occasional on-call.

Screening fit / why: PROMISING if software helpdesk history. Your Linux/technical troubleshooting work helps. Strong French may be challenging at B2; vendor-specific fintech reporting is learnable but unfamiliar.

Pay: Not disclosed; technical role, generic CSR benchmark is not a specific proxy. Schedule: Distributed support schedules; occasional Sunday/holiday on-call listed.

Evidence: Employer Workday link exists but live state unconfirmed | Open listing / application | Second source / check

10 HostPapa / Managed.com

DO NOT APPLY AS ENGLISH-ONLY

Web Hosting Customer Experience Specialist — “English” title

REMOTE / Tunisia not separately confirmed | Title says English; BODY requires English + Spanish | EMPLOYER DIRECT; LANGUAGE TRAP

What you do: Technical support via phone, email/tickets and live chat for web hosting products.

Minimum requirements: Official role body explicitly asks for written and spoken English AND Spanish, despite English-only title.

Screening fit / why: NOT SUITABLE without Spanish. Language mismatch makes this a poor application. Use the French/English HostPapa listing instead.

Pay: Not disclosed. Schedule: Several Eastern Time shifts.

Evidence: Official vacancy open; misleading language label | Open listing / application

11 Regnology

HYBRID/ONSITE BACKUP

Junior Technical Support Specialist

TUNIS / remote not verified | English B2/C1 (per indexed description) | EMPLOYER WORKDAY / WORK FORMAT UNKNOWN

What you do: Junior product/software troubleshooting and technical support; possible progression into application support.

Minimum requirements: English B2/C1, analytical communication and interest in software/log analysis; advertised as junior.

Screening fit / why: GOOD TECHNICAL FIT / REMOTE UNCONFIRMED. Potentially attractive if you relax the fully-remote requirement, but do not assume Workday “Tunis” means home-based.

Pay: Not disclosed. Schedule: Unconfirmed.

Evidence: Official Workday job indexed | Open listing / application

12 Transcom

LOCAL FALLBACK ONLY

Inbound English-speaking Customer Service Representative

TUNIS LAC / office indicators in employer post | English C1 | EMPLOYER DIRECT / ON-SITE

What you do: English phone customer service for a digital marketplace; rotating shifts with 2–3 weeks initial training.

Minimum requirements: C1 English, empathy, ability to handle phone support and rotating shifts.

Screening fit / why: GOOD LANGUAGE FIT / NOT REMOTE. Likely simpler qualification match than specialist roles, but listing references on-site offices and taxi transport, so it fails remote preference.

Pay: Not disclosed. Schedule: Rotating shifts; Tunisia Lac location.

Evidence: Official Tunisia vacancy visible | Open listing / application

13 SupportYourApp

WATCH FOR REPOST

Fulfillment Support Specialist (English C1)

REMOTE / Tunisia in aggregator | English C1 | THIRD-PARTY; EMPLOYER LINK REMOVED

What you do: Order tracking and fulfillment, returns, delivery exceptions, customer queries and cross-team coordination.

Minimum requirements: English C1, >=1 year customer support, 6–12 months fulfillment/logistics.

Screening fit / why: GOOD LANGUAGE FIT / NOT ACTIVE VERIFIED. Your procurement/logistics experience might help. Job index dated Oct 18, but official link now fails: do not rely on this vacancy.

Pay: USD compensation offered but amount undisclosed. Schedule: Advertised Mon–Fri 09:00–18:00 GMT+2, if reposted unchanged.

Evidence: Employer application link redirects to NOT FOUND | Open listing / application | Second source / check

14 ModSquad

JOIN TALENT POOL

Mod / Customer Support Talent Network

REMOTE NETWORK / Tunisia eligibility unverified | English; role-dependent | EMPLOYER GENERAL CAREERS

What you do: Remote community moderation, digital customer support and brand engagement; gig or longer-term work varies.

Minimum requirements: Role-specific languages, work authorization and country restrictions vary.

Screening fit / why: POSSIBLE FUTURE MATCH / NO VERIFIED OPENING. A reasonable talent pool to join but not a verified paid vacancy in Tunisia.

Pay: Not disclosed for a Tunisia-based role. Schedule: Project-based.

Evidence: Official general application exists (no specific Tunisia role) | Open listing / application

15 Regnology

HYBRID BACKUP

Customer Support Specialist — Transaction Reporting

TUNIS / HYBRID (not fully remote) | English / role-specific | WORKDAY INDEX; HYBRID

What you do: Client-facing reporting product support and regulatory reporting workflows; more specialized than mainstream CSR.

Minimum requirements: Client-service skills plus regulatory reporting/business data familiarity depending on team.

Screening fit / why: POSSIBLE / FINANCE SPECIALISM NEEDED. International environment; requires checking work model and finance knowledge. Not a match if fully remote is non-negotiable.

Pay: Not disclosed. Schedule: Unconfirmed.

Evidence: Official vacancy indexed | Open listing / application

16 Concentrix Tunisia

LOCAL FALLBACK

English Customer Advisor / Client Advisor (local pool)

TUNISIA / remote not verified | English; some bilingual opportunities | EMPLOYER CAREERS / MODE UNKNOWN

What you do: Inbound multichannel support, customer inquiry handling and service KPIs across client accounts.

Minimum requirements: Customer-service attitude; project-specific English/French levels.

Screening fit / why: POSSIBLE / ONSITE OR HYBRID BACKUP. Practical local fallback, but no basis to assume working fully from home or a salary increase.

Pay: Not disclosed; compare net offer carefully. Schedule: Client-dependent shifts.

Evidence: Official Tunisia careers listings exist | Open listing / application

17 SupportYourApp

DO NOT APPLY FROM TUNISIA WITHOUT CHECK

American English Customer Support Consultant

REMOTE / countries listed exclude Tunisia | American English | EMPLOYER CURRENT OPENINGS

What you do: English-speaking customer support role; helpful example of why worldwide branding does not mean worldwide hiring.

Minimum requirements: American English; country list currently includes Morocco, South Africa and Philippines, not Tunisia.

Screening fit / why: LOCATION BLOCKED / do not assume global. Excellent English match in theory, but explicitly listed country set does not include Tunisia.

Pay: Not disclosed. Schedule: Unconfirmed.

Evidence: Official company job board snapshot | Open listing / application

4 Multilingual opportunities worth checking

Arabic and French can expand the search, but a published French C1 requirement is not met by B2. Listed “fluency” without a CEFR minimum is less rigid but still requires employer assessment.

01 Quadcode

APPLY NOW

Customer Support Operator (Arabic & English)

REMOTE / Tunisia explicitly listed | English + Arabic + French | EMPLOYER DIRECT

What you do: Live chat and email support (no telephone calls), product questions, case resolution and customer-service KPIs.

Minimum requirements: Fluent written/spoken Arabic, French and English; previous similar experience only an advantage. English-only CV required.

Screening fit / why: GOOD / conditional on French fluency. Very accessible support duties, explicitly Tunisia-compatible. Your C1 English is strong; B2 French may or may not meet the employer’s unquantified “fluency” test.

Pay: Not disclosed; “competitive remuneration” (no amount). Schedule: Monday–Friday 08:00–16:30 GMT+3 (06:00–14:30 Tunisia on current UTC+1 offset).

Evidence: Official vacancy visible | Open listing / application

02 HostPapa / Managed.com

APPLY NOW

Web Hosting Customer Experience Specialist (French & English)

REMOTE / Tunisia identified by Built In | English + French | EMPLOYER + THIRD-PARTY LOCATION

What you do: Phone, email, tickets and chat for web hosting customers. Diagnose domains, DNS, WordPress, email accounts and website issues.

Minimum requirements: English/French written and spoken, support or helpdesk experience; web hosting familiarity helpful. No C1 French level explicitly required.

Screening fit / why: GOOD / depends on spoken French and web basics. Your technical troubleshooting experience can stand out. French B2 and limited WordPress/DNS exposure could be tested. Tunisia eligibility is stated by Built In, not on the employer page.

Pay: Not disclosed; company says market-benchmarked competitive pay. Schedule: Listed 09:00–17:30 Toronto Eastern Time; confirm the exact Tunisia shift with recruiter.

Evidence: Official employer application visible | Open listing / application | Second source / check

05 Whizz

VERIFY + APPLY

Virtual Customer Service Representative (live video)

REMOTE / Tunisia in job index | English C1–C2 + French + Arabic | THIRD-PARTY; EMPLOYER POST UNCONFIRMED

What you do: Help e-bike customers through a live video terminal: subscriptions, plans, bike questions, payments and basic troubleshooting.

Minimum requirements: English C1–C2; fluent French/Arabic; 2+ years in customer support, call center or sales; comfortable on camera.

Screening fit / why: CONDITIONAL / French and 2+ years. Unusually relevant to your electronics/battery experience, but French fluency and 2+ experience must be confirmed.

Pay: Not disclosed. Schedule: Video-facing throughout shifts; exact shift pattern not verified.

Evidence: Employer application needs reconfirmation | Open listing / application | Second source / check

06 Binance

ASK ELIGIBILITY FIRST

Customer Service Representative (Arabic & English)

REMOTE-FIRST / listed country Jordan | Arabic native + advanced English | EMPLOYER DIRECT / JORDAN

What you do: High-volume live chat, account verification, tickets and customer complaints for a cryptocurrency exchange.

Minimum requirements: 1+ year customer service, college degree, native Arabic, advanced English; rotating/night shifts.

Screening fit / why: QUALIFICATIONS plausible / geography blocked. Language and support background are relevant. The official listing names Jordan, so do not assume remote Tunisia is permitted.

Pay: Not disclosed; “competitive salary” only. Schedule: Rotating hours, potentially night shifts.

Evidence: Official listing active; Tunisia NOT confirmed | Open listing / application

07 SupportYourApp

SKIP UNLESS REQUIREMENT CHANGES

Customer Support Consultant (French & English)

REMOTE / Tunisia explicitly accepted | French C1 + English C1 | EMPLOYER DIRECT

What you do: Email, chat and telephone support for international software/product clients; collaboration with technical teams.

Minimum requirements: At least 6–12 months experience; employer explicitly demands C1 or higher in French AND English.

Screening fit / why: NOT AT REQUIRED FRENCH LEVEL. Your English meets the threshold; B2 French is below the employer’s hard C1 screen. Answer proficiency questions accurately.

Pay: USD compensation stated, figure not disclosed. Schedule: Variable shifts. One application asks about rotating 08:00–16:00 and 15:00–23:00 GMT+2.

Evidence: Official application visible | Open listing / application | Second source / check

08 5CA

WATCH ONLY

French & English Customer Support Agent

REMOTE / Tunisia advertised | French C1 + English B2+ | THIRD-PARTY + COMPANY CAREERS

What you do: Remote customer service for consumer technology / online experiences through digital support channels.

Minimum requirements: French C1 is specified; English B2+.

Screening fit / why: NOT AT REQUIRED FRENCH LEVEL. Good English, but B2 French is below the stated French requirement. Do not count as a realistic active application.

Pay: Not disclosed. Schedule: Shift details not independently verified.

Evidence: Indexed opening; employer page access limited | Open listing / application | Second source / check

09 Whizz

SECONDARY

Sales Representative (French/Arabic) — adjacent role

REMOTE / Tunisia listed | English C1–C2 + French + Arabic | THIRD-PARTY

What you do: Customer calls, bike subscriptions, scheduling, deliveries and conversion. Sales-heavy rather than pure support.

Minimum requirements: 1+ year sales; French/Arabic fluent; English C1–C2; New York-based schedule.

Screening fit / why: CONDITIONAL / sales and French. May be easier than engineering but target/commission pressure can be substantial. Prioritize only if genuinely open to sales.

Pay: No base figure disclosed; quarterly performance bonus mentioned. Schedule: New York 09:00–18:00 or 14:00–23:00, which can mean late-night Tunis hours.

Evidence: Listed by aggregator; employer application unverified | Open listing / application

5 Compensation: verified reference and decision targets

Do not equate global support salaries, U.S. salary websites or AI-generated estimates with take-home pay for a Tunisia-based applicant.

Published remote customer-service benchmark for Tunisia

Plane, a global HR/payroll platform, displays these annual base salary figures for a remote Customer Service Representative in Tunisia. They do not include benefits and are not attributed to Binance, Quadcode, HostPapa or any other named employer. Sampling method and sample size are not shown on the page.

Plane percentile	Annual base USD	Monthly base USD = annual / 12
10th	$6,378	$531.50
50th (median)	$8,461	$705.08
90th	$10,342	$861.83

Source: Plane Tunisia CSR salary reference. Annual USD figures are quoted directly; monthly values are arithmetic division and rounded to 2 decimals. These are not Tunisian net-pay figures.

Personal negotiation thresholds (TND, monthly NET)

Your current pay is 1,500–1,600 TND net/month. The table below shows percentage improvements for a new position with a verified monthly net equivalent. These are aspirational targets, not employer salary estimates.

Target net TND	Increase vs 1,600 TND	Increase vs 1,500 TND	Practical interpretation
2,000	25.0%	33.3%	Probably only worthwhile with major work-life improvement
2,400	50.0%	60.0%	Recommended baseline target
2,700	68.8%	80.0%	Strong target to negotiate
3,000	87.5%	100.0%	Excellent step-up if terms are sound

Formula: ((new net salary − old net salary) / old net salary) × 100. E.g., (2,400 − 1,600) / 1,600 × 100 = 50%; (2,400 − 1,500) / 1,500 × 100 = 60%.

Why there are few employer-specific amounts

The named employers generally write “competitive salary” or “compensation in USD” without a figure. A numerical per-company “supposed salary” would be speculation. The report therefore explicitly labels pay not disclosed and provides one sourced, broad benchmark plus your personal salary negotiation levels.

6 Practical 30-day application campaign

This is an application plan, not a prediction of response dates, interview rate, or probability of acceptance.

When	Action	Why
Days 1–3	Apply to Quadcode and HostPapa French/English. Prepare an English-first customer-support CV.	Direct applications; most favorable alignment between location evidence and skills.
Days 4–7	Confirm Ricaris pay unit, active vs standby hours, contract and Tunisian payments. Verify Regnology employer opening status.	Prevent a low-quality transition or time spent on withdrawn posts.
Week 2	Check Whizz employer careers for video support role. Ask Binance recruiter explicitly about Tunisia eligibility before deep preparation.	French assessment and location restrictions are key unknowns.
Week 3	Practice 10–15 English support scenarios, French phone troubleshooting, CRM/chat KPIs, ticket escalation and angry-customer calls.	Demonstrate job-relevant skills without overloading applications with engineering details.
Week 4	Follow up professionally, assess offers against a net equivalent of 2,400–3,000 TND, and keep applying if response volume is low.	A month is a research/application sprint, not a guaranteed offer timeline.

CV positioning

• Headline example: “Customer Support & Technical Troubleshooting | English C1 | French B2 | Remote / Tunisia.”

• Relevant evidence: customer communication, root-cause troubleshooting, ticket documentation, supplier escalation, order coordination, international teamwork, confidentiality and written communication.

• Relevant technical advantage for HostPapa/Regnology: Linux troubleshooting, logs, technical support, structured diagnostics and documentation.

• Avoid unverified claims about Zendesk, live-chat volumes, WordPress, years of customer service, sales results or Arabic CEFR/native status. Add these only when true.

Email / recruiter inquiry — Tunisia eligibility and salary

Reusable recruitment message

Hello, I am interested in the customer support vacancy. I am currently based in Tunisia, with English at C1 level, French at B2 level and a background in technical troubleshooting and customer-facing coordination. Could you please confirm whether this role can be performed remotely from Tunisia, the expected working hours, whether the engagement is employment or contracting, and the compensation range and payment currency? Thank you.

7 Verification checks and traps

The existence of a web page does not prove the vacancy is currently hiring residents of Tunisia. These specific traps were found in the research.

HostPapa “English” job is actually English + Spanish

The employer page title says “English,” but its About You section asks for written/spoken English AND Spanish. This contradicts the headline. Use the French/English vacancy instead.

SupportYourApp English fulfillment post is not a verified live vacancy

A job board displays a posting dated 18 October 2026, but the associated official Workable job ID redirects to its career homepage with not_found=true. Treat as withdrawn or otherwise unavailable unless reposted.

Binance remote-first is not “work from anywhere”

The official Arabic/English customer-support job lists Jordan. Tunisia is not listed. Reach out to recruitment; do not misrepresent your location.

Transcom Tunisia English post is office-oriented

The direct listing says Tunisia, Lac, and advertises modern offices and free taxis. A third-party remote label cannot override the employer’s description.

Regnology Workday vacancy not fully readable

The remote Tunisia Regnology tech-support job was found via a third-party index with an official Workday link. Its current open status could not be independently confirmed on Workday.

French B2 does not equal C1

SupportYourApp asks applicants to tick yes/no for C1 French; 5CA also advertises C1 French. Applying under a false language level can backfire at assessment.

Beware “remote + worldwide” salary confusions

Listings may quote a gross salary, a US benchmark, an unpaid standby rate or a temporary contract. No offer amount is confirmed until the employer issues an actual proposal.

8 Clickable source register

All links below are live hyperlinks in the PDF. “Direct” means the URL points to the employer’s hiring system; it does not certify future vacancy availability. Check every posting immediately before applying.
